About the Project

- The District recognizes the need for Bridge Housing and will be working with the Department of General Services, Clear Real Estate, and Fillat+ Architecture to design and construct the new E Street Bridge Housing.
- The Department of General Services (DGS) and the Department of Human Services (DHS) have submitted permits to begin the project, with Clear Real Estate Services providing management.
- We began and continue our process with outreach to stakeholders like the ANC, Councilmembers, and immediate project neighbors.
 - We will form an advisory group to invite input and share information and progress updates.

Low Barrier vs. Bridge Housing

Bridge Housing

As governed by the Homeless Reform Act (HSRA), Bridge Housing, provided by DHS, offers temporary housing solutions to individuals transitioning from homelessness toward permanent housing, focusing on bridging the gap.

- **Coordinated Access:** Admission is based on defined categories through CAHP.
- **Case Management:** Participation in case management is required to maintain residency
- **Private Rooms:** Two-person suites with private bathrooms provide more privacy than low-barrier shelters
- **Timely Transitions:** Built-in timelines ensure residents move toward permanent housing
- **Inclusive Services:** Serves men, women, and non-conforming individuals
- **Mayor's Goal:** Supports efforts to make homelessness rare, brief, and non-recurring

Program Overview

DHS is focused on the following services for adults aged 18 or older:

- Anticipated Length of Stay: 1 – 5 Months | Client Services: Intensive case management
- Provider Selection: To Be Determined
